

I. Name and Degrees

Nicholas Howard Dodman, BVMS, DVA, DACVAA, DACVB
Diplomate ACVA and Diplomate ACVB

II. Place of Birth or Citizenship

London, England

III. Present Business Address

Tufts University School of Veterinary Medicine
200 Westboro Road, North Grafton, MA 01536

IV. Undergraduate Education (College)

Secondary (High) School - Kent College, Canterbury, Kent
General Certificate of Education: 10 subjects at Ordinary Level, 3 subjects at Advanced Level

V. Advanced Degree(s):

1965-1970 - Bachelor of Veterinary Medicine and Surgery (Glasgow University Veterinary School)
Primary School - Hitherfield Road School, London

1975 - Diploma in Veterinary Anesthesia Royal College of Veterinary Surgeons
1971 - Primary examination for Fellowship of the Royal College of Veterinary Surgeons

VI. Board Certification

1996 - Diplomate, American College of Veterinary Behaviorists
1982 - Diplomate, American College of Veterinary Anesthesiologists

VII. Licensure

Massachusetts, USA

VIII. Present Title/Position

2016 – Professor Emeritus, Tufts University

1990 to 2106 - Professor, Dept. of Clinical Sciences
Tufts University School of Veterinary Medicine
North Grafton, MA

1990 to present - Director of Behavior Clinic
Tufts University School of Veterinary Medicine
North Grafton, MA

IX. Professional Position

1990 to 2016 - Professor, Dept. of Clinical Sciences
Tufts University School of Veterinary Medicine
North Grafton, MA

1990 to 2016 - Director of Behavior Clinic
Tufts University School of Veterinary Medicine
North Grafton, MA

1983-1990 - Associate Professor of Anesthesia, Head, Anesthesia Section

Tufts University School of Veterinary Medicine
North Grafton, MA

1981-1983 - Assistant Professor of Anesthesia
Tufts University School of Veterinary Medicine
North Grafton, MA

1972-1981 - Lecturer in Veterinary Anesthesia
University of Glasgow, UK

1972 (3 mos.) - Mixed practice in Surrey, England

1971 (6 mos.) - Small animal practice in San Francisco, CA

1970-1971 - House surgeon at Glasgow University Veterinary Hospital, UK

X. Administrative Positions Held

Head of Animal Behavior Section
Head of Tufts Veterinary School Publications (Outreach)
Chairman of the Scottish Region of the BSAVA

XI. Professional Society Membership

Member of American Veterinary Medical Association
Member Board of Regents of American College of Veterinary Behaviorists
Leadership council member of the Humane Society Veterinary Medical Association

XII. Honor Societies

N/A

XIII. Honors and Other Distinction

Maxwell Medal from Dog Writers of America 1995
Muse Medallion from Cat Writers of America 1997

XIV. Memberships in Other Organizations

N/A

XV. Teaching Experience

1992 to 2016 - Behavior at Tufts University School of Veterinary Medicine - for degree of DVM Master's
Program for the Center for Animals

1981 to 1992 - Anesthesiology at Tufts University School of Veterinary Medicine - for the degree of DVM

1972-1981 - Anesthesiology and Intensive Care at the University of Glasgow Veterinary School - for the degree
of BVMS (a DVM equivalent)

XVI. Committees

1. Outside University

Humane Society Veterinary Medical Association (HSVMA)
Washington, DC
Leadership Council Member

2. Within University

Formerly a Fellow, Center for Animals and Public Policy (3-Year Term)

XVII. Consultancies

Zero Odor, LLC
Center for Canine Behavior Studies
We Cann Heal

XVIII. ResearchPresent Activities

Behavioral modification studies in horses and dogs.
Pharmacologic treatment of anxiety and aggression.
Genetics and central mechanisms involved in canine obsessive compulsive disorders.

Planned Research

Continuing work with topics listed above under the heading "Present Activities".

Development Activities

\$750,000 from the American Foundation over 10 years to support behavioral section activities.

Grant Applications (funded)

- 1973: \$2,000. CO₂ narcosis in swine. ARC. Principal Investigator.
- 1982: \$1,600. Injection anesthetics in swine. BRSG Grant. Principal Investigator.
- 1983: \$4,700. Malignant hyperthermia and its treatment in the horse. USDA. Principal Investigator.
- 1984: \$2,500. An investigation into the pathophysiology of equine post anesthetic lameness. Mass TB Breeders Assoc. Co-Investigator. Principal Investigator: Dr. Norman W.
- \$2,617: The pharmacokinetics of oral and intravenous administration of Dantrolene Sodium in the horse. Mass TB Breeders Assoc. Co-Investigator. Principal Investigator: Dr. Court M.
- 1985: \$5,000. The role of endorphins in stereotyping vices in the horse. NIH, BRSG. Principal Investigator. Co-Investigator: Dr. Shuster L.
- \$1,500. The influence of halothane anesthesia upon the CSF levels of neurotransmitters, endogenous opiate peptide and biogenic amines. TNEMC. Principal Investigator: Dr. Hudson JC. Co-Investigators: Drs. Dodman NH, Kream, RM, Shuster L.
- \$6,000. The clinical evaluation of AErrane™ (Isoflurane) for use in dogs: Safety and efficiency of halothane versus isoflurane. Anaquest. Principal Investigator. Co-Investigators: Drs. Seeler DC and Court MH.
- 1986: \$4,600. The use of a narcotic antagonist (naltrexone) to control pruritis in the dog. BRSG Grant. Principle Investigator: Dr. White S. Co-Investigators: Drs. Dodman NH, Shuster LS.
- \$7,000. Equipment grant to build High Frequency Ventilator for horses. Mass TB Breeders Assoc. Principle Investigator. Co-Investigators: Drs. Lehr JL, Paradis M.

- 1988: \$2,999. The efficacy of IPPV and HFV in neonatal foals. Hills Research Foundation. Principle Investigator: Dr. Norman WM. Co-Investigators: Drs. Lehr JL, Dodman NH, Paradis M.
- \$4,100. An investigation into the pathophysiology of equine post-anesthetic lameness using laser doppler flowmetry. MTBA. Principal Investigator: Dr. Norman WM. Co-Investigators: Drs. Pipers FS, Dodman NH.
- \$3,000. Development of an acute visceral and cutaneous pain model for assessment of perioperative analgesics in cattle. Faculty Fund. Principle Investigator: Dr. Court MH. Co-Investigators: Drs. Dodman NH, Thalhammer H, Steckel R.
- \$31,717. Continuous infusion of naltrexone to prevent stereotypic licking and scratching in the dog. Fort Dodge. Principal Investigator. Co-Investigators: Drs. Shuster L, Court MH, White SD.
- \$8,950 (funded in part). Does midazolam potentiate epinephrine-induced arrhythmias in the dog? NIH BRSG. Principal Investigator: Dr. Court MH. Co-Investigators: Drs. Dodman NH, Greenblatt DJ.
- 1989: \$3,794. Clinical evaluation of butorphanol and xylazine/butorphanol for surgical analgesia in cattle. Fort Dodge. Principal Investigator. Co-Investigators: Drs. Court MH, Levine H.
- \$10,000 down payment and \$10,000 annually until product is marketed, thereafter 6% of gross sales annually as royalty payment. Ivax licensing agreement for United States patent "Method for Preventing Stereotypic Behavior in Animals."
- \$37,000. Investigation of an in-line glucose sensor. Medisense Corporation, Cambridge, MA.
- \$4,500. Investigation of an infra-red thermometer. Drs. Dodman NH, Fikes L. Exergen Corp, Natick, MA.
- 1991: \$21,108. Clinical study to investigate the role of dietary protein content on canine behavior problems. Waltham Center for Pet Nutrition, England. Co-Investigators: Drs. Dodman NH, Shuster L.
- 1992: \$10,000 per year annual licensing fee Buspirone Patent: (1992) Fort Dodge/American Cyanamid.
- 1993: \$25,000. Study of an Equine Model of Tourette's Disease. Tourette Syndrome Association. Shuster (P.I.), Dodman NH.
- \$10,000. Biochemical and genetic analysis of blood samples from Bull Terriers affected with seizure disorders. Bull Terrier Club of America. Co-Investigators: Drs. Dodman NH, Moon-Fanelli AA.
- \$10,000. Philanthropic support of the behavior program. The Dusky Foundation.
- 1994: \$30,000. Residency Training Grant. Morris Animal Foundation.
- \$41,500. Post-doctoral fellow to assist with genetic analysis of animal models of obsessive-compulsive disorder. National Institute of Mental Health.
- \$8,500. A preliminary investigation of the attractiveness of two types of dog litter to puppies and adult kennel dogs. Golden Cat Corporation. Principal Investigator.
- 1995: \$35,932. Pilot clinical study to determine the efficacy of buspirone hydrochloride (an anxiolytic) for reducing urine marking behavior of cats. Fort Dodge / American Cyanamid. Principal Investigator.
- 1996: \$72,685. Dietary Protein Study, Phase II. Hills' Pet Nutrition, Inc. - Science and Technology Center. Principal Investigator. Co-Investigator: Dr. DeNapoli J.
- \$38,359. The effect of dietary protein content on compulsive behavior (tail chasing) in dogs. Hills' Pet Nutrition, Inc. - Science and Technology Center. Principal Investigator: Dr. Moon-Fanelli AA. Co-Investigator: Dr. Dodman NH.

- 1999: \$47,940. Bull Terrier families affected with compulsive tail chasing behavior: Behavioral diagnosis, pedigree collection and DNA isolation for future genetic mapping studies - American Kennel Club Canine Health Foundation, Principal Investigator: Dr. Moon-Fanelli AA. Co-Investigators: Drs. Dodman NH, Ostrander E.
- 2008: \$40,000. Genetic Variation Associated with OCD Susceptibility in Animal Models. Obsessive-Compulsive Foundation, Inc., Principal Investigator: Dr. Xu J, Co-Investigators: Drs. Dodman NH, Moon-Fanelli AA. (not funded)
- \$100,000 (over 4-years) Genetic Variations Associated with Longevity in Dogs. The Ellison Medical Foundation, Principal Investigator: Dr. Xu J, Consultant: Dr. Dodman NH. (Not funded)
- 2009: \$15,000. Voxel-Based Morphometry Pilot Study in Canine Compulsive Disorder; Blanket and Flank Sucking in Doberman Pinschers. Waltham Foundation. Principal Investigator: Dr. Dodman NH. Co-Investigators: Dr. Ogata N, Dr. Kaufman MJ. (not funded)
- \$194,155. Mapping Genes for Canine Obsessive Compulsive Disorder. Canine Health Foundation. Principal Investigators: Dr. Dodman NH, Dr. Moon-Fanelli AA. Co-Investigators: Dr. Ginns E, Dr. Lindblad-Toh K. (not funded)
- 2010: Canine compulsive study in Border Collies: Behavioral Diagnosis, Treatment and DNA Isolation for Genetic Association Studies. CHF/AKC grant. Principal Investigators: Dr. Ogata N, Dr. Dodman NH, Dr. Ginns E.I., Dr. Galdzicka M.
- Genetic Association Study of Canine Compulsive Disorder in Border Collies. Morris Animal Foundation. Principal Investigators: Ogata N, Dodman NH, Ginns E.I., Galdzicka M.
- 2011: \$57,718: Canine models of OCD (Judah Fund). Partners Health Care Sundry Fund. Subcontracting sponsor: MGH. Principal Investigator: Nicholas H. Dodman
- 2012: \$28,396. Use of Ecopipam in treating repetitive self-injurious behaviors. Psyadon Pharmaceuticals, Inc. Principal Investigator: Nicholas H. Dodman
- \$14,033: Response of dogs to canine-friendly TV content. PTV Media, LTD. Principal Investigators: Nicholas H. Dodman
- \$3,879: The effectiveness of the anxiety wrap in the treatment of canine thunderstorm phobia: An open label trial. Animal Plus, LLC. Principal Investigators: Nicholas H. Dodman and Nicole Cottam
- \$85,059: Voxel-based morphometry pilot study in canine compulsive behavior. Emory gift account. Principal Investigators: Drs. Nicholas H. Dodman and Niwako Ogata
- \$64,933: Canine Models of OCD (Judah Fund). Partners Health care Sundry Fund. Subcontracting sponsor: MGH. Principal Investigator: Nicholas H. Dodman
- \$16,108: Identifying genetic locus(i) associated with compulsive behavior in Siamese and Birman cats. Winn Feline Foundation. Principal Investigators: Dr. Dodman NH, Dr. Ginns E.I., Dr. Matt Huentelmann
- \$44,280: Application to Morris Animal Foundation for funding to buy Feline SNP Chip Arrays for analysis of feline DNA (see study above).
- 2014: \$20,000: Grant from Winn Feline Foundation's Miller Trust for "Feline Wool Sucking Study" in Siamese and Birmans. Principal Investigators: Dr. Nicholas Dodman & Leslie Lyons, Ph.D.
